Customer information

Test transaction in the Internet Payment Gateway test environment

The Internet Payment Gateway test environment is connected to a test authorisation system. This authorisation system allows you to create targeted and payment denials for credit cards.

Credit Cards

Return Codes at the test environment with credit card payments:

Please use only the amounts from 1.00 to 999.00 EUR

For transactions, the last two digits of the Transaction amount are sent as a return code back.

For example:

Successful transaction will show a return code 00, if you book 10.00 EUR

Declined transactions will show a return code 05, if you book 10.05 EUR

For test transactions please use the following Visa and MC card numbers:

Visa: 4921 8180 8989 8988, expiry 12/2020, Card Validation Code: any 3 digit number

MasterCard: 5404 1070 0002 0010, expiry 12/2020, Card Validation Code: any 3 digit number

Direct Debit

To test payment system in the demo, any valid German IBAN can be used. A charge of the account will not take place in the test environment.

Giropay

IBAN: DE46940594210000012345
BIC: TESTDETT421

The IBAN can be entered optionally only on the online banking page of the relevant bank.

Loginname: sepatest1
PIN+TAN: every number, 5 or 6 digits

Sofortüberweisung

For German sender accounts enter 88888888 (8 times the number "8") in the payment wizard as the sort code for German sender accounts
Choose "Others" for Belgium and then 999 (3 times the number "9")
and for all other countries 00000 (5 times the number "0") or select "Demo Bank".
